EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In claim 15, the phrase "levothyroxine" in line 1 has been changed to "thyroid hormone".

2. The following is an examiner's statement of reasons for allowance: the prior art fails to teach or suggest dosage forms of thyroid hormones prepared using compression pressures of less than 5000 psi/g. The low compression pressure claimed by Applicant limits the amount of moisture liberated from excipient particles during compaction, and thus improves the stability of the dosage form. With regard to claim 12, the prior art fails to teach or suggest treatment of thyroid hormone with a hydrophobic powder. Said treatment reduces degradation of the composition by moisture.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
